

Custom Dictionaries (Directories)

- [Custom Directories](#)
- [Custom Directory Field In The Other Directory](#)
- [Custom Directory Field In The Jira Issue](#)

After installing plugin you will see new **Custom Directories Dictionary** in Jira. Custom directories can be added through administrative menu of CRM for Jira. At the present time it is a list of the some type values that can be used in other CRM directories or in Jira issues. Jira Administrator can create many different custom directories.

Custom Directories

All custom directories are now available in "**CRM\Directories**" menu.

Custom Directory Field In The Other Directory

You can add field with **Custom Directory type** to the system dictionary of CRM plugin related to any custom directory.
