

Custom field - CRM Products & Services

You can output products sold on issue screen by using CRM Products & Services Custom field:

The screenshot shows a JIRA issue titled "500-user license purchase" under the "SALES MANAGEMENT / DEAL-205" project. The issue is in the "POTENTIAL" status, with a priority of "Major" and a company of "Netdesk LLC". The "CRM Transactions" table shows a single transaction for "Netdesk LLC" with a total amount of 850.00. The "CRM Products & Services" custom field is highlighted with a red box, showing a table with columns for Product Name, Quantity, Price, and Summ. The table contains one row for "JIRA 500 Users" with a quantity of 1 and a price of 8000.0, resulting in a summ of 8000.0.

Product Name	Quantity	Price	Summ
JIRA 500 Users	1	8000	8000.0

To set this field go to Administration menu/ Issues/ Custom fields click "Add Custom Field" and select "CRM Product & Services" field type:

The screenshot shows the JIRA Administration menu. The "Issues" tab is selected, and the "Custom fields" section is highlighted. The "Add Custom Field" button is clicked, opening a "Select a Field Type" dialog. The "CRM Products & Services" field type is selected, which is highlighted with a red box. The dialog also shows other field types like "CRM contact Select field", "CRM Custom directory", "CRM Property", and "CRM Select Custom directory".
